

# TIBOR2019

# NEW! Arctic White & Fun Colors!

Introducing our newest color for the Tibor Signature Series, Arctic White. This unique color offers improved hardness and abrasion resistance. As with all Tibor Reels, they exceed the military standard for our

anodizing (Mil-A-8625). We are also now offering nameplates, reelstands, drag knobs, stop nuts and for BackCountry Wides, spool end caps that match our existing Signature Hub Colors.

# Signature Series

Signed. Sealed. Delivered.

Frost Silver Finish w/ Violet 3D Hub and matching nameplate w/ Snook engraving.

Completely ventilated spool and frame. Robust incoming and outgoing clicker sound. Innovative, waterproof sealed drag system. Easy change from left to right hand retrieve. Will never overrun while stripping line.

size	weight	rods	frame size	capacity*

## Tibor Light®

Back Country Wide:  
Unsurpassed  
performance with  
a delicate touch.

Crimson Finish w/ Redfish and  
Custom Text Engraving

This series features the ConstaLube™ (CL) System, an innovative drag design composed of a special felt and lubricant, producing a constantly smooth drag throughout the entire range of resistance. The quality, construction, watch-like precision and superb drag system will deliver unmatched performance against anything from an 8 inch brook trout to a 30 lb. tarpon.

## Billy Pate

The standard  
for the high  
performance  
fly reel.

Billy Pate Bonefish with custom  
Steelhead engraving.

1975 was a hallmark year for the fly fishing world. It was then that Ted Juracsik introduced his first Anti-Reverse Tarpon Reel: The Billy Pate. No other reel has matched the Pate's durability and dependability day in day out, year after year, regardless of conditions, locale or species. This precision piece of equipment is designed to withstand the most demanding fly fishing environments.

size	weight	rods	frame size	capacity*
Salmon	8 oz.	6-8	3.5" x 1.5"	230 yds. w/ WF6F
